STYLE THIS LOOK

- Terracotta and mustard are ideal for living rooms, dining rooms and north-facing spots that could do with extra warmth. Use strong tones for accents, and more muted shades for all-over wall cover.
- Mix copper and rust with touches of dark wood and brass or gold to ramp up the comfort factor. Alternatively, make a bold statement with flashes of shades from the opposite side of the colour wheel such as deep blue.
- Contrast orange and amber with crisp white or soft cream to ensure the scheme looks fresh and bright without becoming overwhelming. For extra depth and interest, introduce textured fabrics and accessories.

Rust shell vase, £24.99, Coffee & Cloth Ltd

Amber dappled votive, £2.50, Primark

Turin window seat, £159.99, The Range
